

# Biotech Japan Corporation

---

CORPORATE PROFILE

# Overview

---

Year of foundation	1994
Headquarters	Agano City, Niigata Prefecture
Primary businesses	Development of plant-derived lactic acid bacterial technologies Development and manufacturing of low-protein food products Development and manufacturing of functional boiled rice products
Clients	
Medical industry	Terumo Kissei Pharmaceutical
Food industry	Bourbon, Kewpie, Asahi Group Foods, etc.

# Biotech Japan's business fields

Dysphagia food

Low-protein food

Low-carb food

Agricultural materials

Plastic-degrading bacteria

# Overseas projects - History

2015 Adopted for the JICA dissemination/demonstration project

Establishment of a subsidiary in the Philippines

2016 Development of low-protein food products

using Filipino rice

Installation of a test plant

2017 Development of guidelines

2020 Completion of a new plant in Tarlac

# - About the JICA dissemination/demonstration project

---

Program used: Dissemination/demonstration project for small- and medium-sized businesses

Host country: Republic of the Philippines

Counterpart: Philippines Rice Research Institute (PhilRice)

Topic: Dissemination/demonstration project for introducing low-protein rice  
used in dietary therapy for patients with chronic kidney disease

External consultant: Daiwa Institute of Research Holdings

# Outline of the JICA project

- Selection of rice cultivars suitable for the breeding of low-protein rice
- Development of processing technologies suited to the preferences of local people

**Research & Development  
Analysis & Verification**

- Assessment of the quality of low-protein rice
- Development of the guidelines and recipes for low-protein dietary therapy
- Questionnaire survey

**Low Protein Rice  
“ECHIGO”**

Food and Nutrition Research Institute

# - About the JICA dissemination/demonstration project

---

Creation of guidelines and recipes for dietary therapy

# RR21's products

# 2020 Completion of a plant in Tarlac

Tarlac City  
Population 340,000  
Capital of the province of Tarlac

# Points to be noted when expanding business overseas

---

1. Lack of punctuality
2. Things don't progress as planned
3. Contract culture
4. Be mindful of “transfer pricing taxation” when making investment overseas

# Now: Our current focus

---

# Dream: Future business development

---

To vitalize communities, people, and businesses through people, product, and service exchanges.

**Agricultural exchanges**

**Student exchanges**

**Industrial exchanges**
